Due to the volume of authorizations requiring amendments to reflect this change, the Deputy Assistant Secretary for Defense Trade Controls is exercising authority under 22 CFR 126.3 to waive the requirement for amendments to change currently approved license authorizations. The amendment waiver does not apply to approve or pending agreements.

All currently approved DSP authorizations identifying old names and addresses will not require amendment to reflect the change to new names and addresses. A copy of this website notice must be attached to the currently approved license by the license holder.

Pending authorizations received by DDTC identifying the old names and addresses on the license will be adjudicated without prejudice. A copy of this website notice must be attached to the approved license by the license holder.

New license applications received 30 days after the effective date identifying the old names and addresses on the license will be considered for return without action.

All currently approved agreements will not require an amendment to be executed to reflect this change at this time. This change must be addressed in the next major amendment. New DSP-83s must be executed as a result of this change, as applicable.

Pending agreement applications that require amending must be brought to the attention of the assigned Agreements Officer by the agreement holder. The necessary changes will be made prior to issuance when the Agreement Officer has been notified.

A copy of this website notice must be maintained by the license holder and presented with the relevant license to U.S. Customs and Border Protection at the time of shipment.
